# Pay less for your insulin and some non-insulin medications.

The Cigna Healthcare Patient Assurance Program helps lower your out-of-pocket insulin and other certain diabetic medication costs.

Managing the high cost of prescription medications is important to us. We think it's important to you too. That's why we want to let you know about the **Patient Assurance Program<sup>SM</sup>**. As a Cigna Healthcare<sup>SM</sup> customer who's eligible for this program, you'll always know what your insulin will cost you. It's our way of helping you get the insulin and some non-insulin medications you need. There is **no cost to participate** – it's part of your Cigna Healthcare medical plan.

## Here's how it works.

- I. Fill a prescription for an eligible insulin or other certain diabetic medications.
- Pay no more than \$25 for a 30-day supply (or no more than \$75 for a 90-day supply) of insulin and some noninsulin medications.<sup>1</sup> Note your deductible doesn't apply to these medications.

Insulins: Basaglar, Humalog, Humalog Mix, Humulin

Non-Insulins: Farxiga, Trulicity, Xigduo XR

If you're not taking a medication on this list, you can call your doctor's office and ask if one of these medications will work for you. If your doctor agrees, ask the office to send a new prescription electronically to your pharmacy.

# Pay no more than \$25

out-of-pocket for a **30-day** supply.

# We help make it easy to save money and stay healthy.

If you have questions about which medications are part of the Patient Assurance Program, call us at **877.484.5966**,

Monday-Friday, 8:00 am-8:00 pm EST.

You can also chat with us online at **myCigna.com**, Monday–Friday, 9:00 am–8:00 pm EST. We're happy to review the list of eligible medications with you.

If you need language assistance or have a disability, please call us at **800.244.6224** (for TTY services, dial 7II). Accommodations are available and provided at no cost to you.
